<b>GRAND TOTAL</b> excluding options					<b>£ 537,194.30</b>

Please note images are for illustrative purposes only and prices are based on the description given.

## Total Cost Includes:

Site survey and  
elevation drawings

Responsibly Sourced  
Materials

O & M Manuals where  
requested

All project management  
and site liaison

Factory Made

## Pricing

The above pricing is strictly nett and excludes any allowances for main contractors discount / retentions or other financial implications. Pricing is valid for 4 months and exclusive of VAT. All prices are subject to contract. One site survey included.

## Payment Terms

No account. Credit subject to qualification.

## Lead Time

We recommend allowing 4 to 5 weeks lead time for MFC, 6 to 7 weeks for upholstery and 7 weeks for veneers or laminates. Need it sooner? Contact your area sales manager before placing your order and they will be happy to advise.

## Manufacturing Excellence With Responsibility

\*Some products awaiting accreditations

## Qualifications

Prices for installation allow for a continuous single phase installation programme during normal working hours, allowing uninterrupted working with access to all areas.

Mechanical hoisting/lifting must be available for access to all floors above ground with holding areas available at point of delivery.

Rubbish to be bagged/bound and moved to an agreed rubbish point on site for disposal by others.

All prices are subject to site survey.

Where sinks or low voltage lighting is specified, electrical and wet/waste plumbing connections are by others.

Any upholstered product quoted meets the minimum legal requirement for commercial usage and if any specific fire retardancy is required for both upholstery and carcass panels please contact us to discuss.

## Railway Carriage New

Prices allow for freestanding, option for built-in available. Please contact us.

Prices allow for spotlights and standard power module unless otherwise specified.

All electrical connections are routed to one central power module requiring only 1 no. 13A socket connection.

Foam is CMHR (combustion modified flare resilient) grade as standard.

## HotLocker Forte

Kind regards,

Michal Dzaman
